### **DETAILED ACTION**

1. This office action is in response to the Amendment filed December 22, 2004.

Accordingly, claims 1-9 were canceled. Currently, claims 10-20 are pending in this application.

### ***Allowable Subject Matter***

2. Claims 10-20 are allowed.

The following is an examiner's statement of reasons for allowance: none of the prior art of record fairly suggests or shows all of the limitations as claimed. Specifically,

Re claims 10 and 16, none of the prior art of record discloses, in combination with other limitations as claimed, a method for producing a CLC color filter comprising the step of forming partition walls at portions corresponding to a boundary of each of pixels or forming pixels while the liquid crystal layer is an amorphous state or a microcrystalline state.

The most relevant reference, JP 2001-303057, discloses a similar method for producing a CLC color filter; however, this reference is overcome by Applicants' priority document (JP 10534.2001).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
